

**Lesson 2.10** Comparing Numbers

Compare 2-digit numbers. Use  $>$  (greater than),  $<$  (less than), or  $=$  (equal to).

$77 \square 87$

$97 \square 98$

$6 \square 49$

$90 \square 80$

$4 \square 27$

$69 \square 58$

$79 \square 5$

$46 \square 75$

$1 \square 10$

$53 \square 32$

$94 \square 82$

$50 \square 93$

$64 \square 64$

$67 \square 29$

$95 \square 3$

$84 \square 96$

$60 \square 39$

$15 \square 11$

$23 \square 9$

$55 \square 72$

$63 \square 63$

$57 \square 85$

$2 \square 68$

$59 \square 83$

$52 \square 31$

$91 \square 8$

$47 \square 37$

$47 \square 47$

$66 \square 83$

$50 \square 50$

$28 \square 7$

$14 \square 59$

$21 \square 31$

$44 \square 54$

$76 \square 65$

$35 \square 23$
