

## Lesson 3.15

### Using Addition for Subtraction

Think addition for subtraction. Solve each problem.

$$20 \text{ } \begin{array}{c} \text{snail} \\ \text{---} \end{array} - 7 \text{ } \begin{array}{c} \text{snail} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 7 \text{ } \begin{array}{c} \text{snail} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 20 \text{ } \begin{array}{c} \text{snail} \\ \text{---} \end{array}$$

$$18 \text{ } \begin{array}{c} \text{football} \\ \text{---} \end{array} - 5 \text{ } \begin{array}{c} \text{football} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 5 \text{ } \begin{array}{c} \text{football} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 18 \text{ } \begin{array}{c} \text{football} \\ \text{---} \end{array}$$

$$19 \text{ } \begin{array}{c} \text{baseball} \\ \text{---} \end{array} - 7 \text{ } \begin{array}{c} \text{baseball} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 7 \text{ } \begin{array}{c} \text{baseball} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 19 \text{ } \begin{array}{c} \text{baseball} \\ \text{---} \end{array}$$

$$17 \text{ } \begin{array}{c} \text{flower} \\ \text{---} \end{array} - 6 \text{ } \begin{array}{c} \text{flower} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 6 \text{ } \begin{array}{c} \text{flower} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 17 \text{ } \begin{array}{c} \text{flower} \\ \text{---} \end{array}$$

$$16 \text{ } \begin{array}{c} \text{car} \\ \text{---} \end{array} - 4 \text{ } \begin{array}{c} \text{car} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 4 \text{ } \begin{array}{c} \text{car} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 16 \text{ } \begin{array}{c} \text{car} \\ \text{---} \end{array}$$

$$12 \text{ } \begin{array}{c} \text{truck} \\ \text{---} \end{array} - 1 \text{ } \begin{array}{c} \text{truck} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 1 \text{ } \begin{array}{c} \text{truck} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 12 \text{ } \begin{array}{c} \text{truck} \\ \text{---} \end{array}$$

$$15 \text{ } \begin{array}{c} \text{plane} \\ \text{---} \end{array} - 3 \text{ } \begin{array}{c} \text{plane} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 3 \text{ } \begin{array}{c} \text{plane} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 15 \text{ } \begin{array}{c} \text{plane} \\ \text{---} \end{array}$$

$$14 \text{ } \begin{array}{c} \text{dog} \\ \text{---} \end{array} - 3 \text{ } \begin{array}{c} \text{dog} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 3 \text{ } \begin{array}{c} \text{dog} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 14 \text{ } \begin{array}{c} \text{dog} \\ \text{---} \end{array}$$

$$20 \text{ } \begin{array}{c} \text{mouse} \\ \text{---} \end{array} - 8 \text{ } \begin{array}{c} \text{mouse} \\ \text{---} \end{array} = \underline{\hspace{2cm}} \quad 8 \text{ } \begin{array}{c} \text{mouse} \\ \text{---} \end{array} + \underline{\hspace{2cm}} = 20 \text{ } \begin{array}{c} \text{mouse} \\ \text{---} \end{array}$$
